To whom it may concern:

We were introduced to the amazing team at Pink Ribbon Cleaning Services upon completion of our renovated office space in the Towers at Williams Square. Our Chief Revenue Officer was so impressed with their attention to detail, efficiency and attentiveness to our requests. We were disappointed with the cleaning services that our building provides, so it was an easy decision to contact Mary for monthly “deep cleaning” for our office. Mary exudes a high level of professionalism and superior customer service and communication. Every month, she will send me pictures of their progress while they’re cleaning and when they’re done. I could not recommend her more.
